CERTIFICATE OF APPRECIATION
TO
HIREN BAFNA

Squirkle Productions is a full service Mumbai based film production company, that specialises in Corporate Films: Business Movies that help organizations solve business problems through communications.

We required a high end PC that would run an animation software.

This had to be an utterly reliable machine, and a very powerful one too.

Hiren Bafna of Digital Technologies, not only built for us and supplied us with the ideal machine, but also provided us with all the support and service that we have needed since then.

I have no hesitation in recommending Hiren to my contacts for their computer needs.

I wish him well.

God Bless,

ADI POCHA
