

Comprehensive Design & Project Consultants

Letter of Appreciation

I am Sharad Kumar founder and partner in M/s Space & People specializing in exclusive architectural and interior design since last 25 years, which has won great acclaim and appreciation by reputed magazine such as "Society Interiors" and "Design Matrix".

Mr. Hiren Bafna of Digital Technologies has come across to me and my referrals as one of the most efficient computer and electronic goods supplier and service provider.

It is after dealing with him that I realized why he is the preferred service provider for outfits like Croma.

When my external hard disk containing most of my business data as well as one of my main office desktop crashed I called Mr. Hiren Bafna, and to my pleasant surprise I had a technician within 3 hours in my office, along with replacement hard disk for both components, and my desktop was functional with installation within the day.

Within 24 hours he had helped with the recovery of data for these disks, and most of my data was salvaged, saving me considerable trouble.

When I referred Mr. Bafna for supplying goods in sizable quantity to one of my know people dealing in corporate gifting, they were pleasantly surprise to have a sample within 45 minutes of their requirement being generated.

It is because of this superfast co-ordination and crystal clarity in working that I have tagged Hiren Bafna as Mr. Efficiency.

I wish him all the best and will recommend him without hesitation to all my clients.

Warm Regards,
Mr. Sharad Kumar
